Cheryl A. Brock - Treasurer

Hello to all Athens Tech students, instructors, alumni, and administrative personnel.

I guess I’d have to describe myself as a person of experience. As some of you already know, this isn’t my first time. I have a B.S. degree in Accounting Theory and Practice from California State University at Northridge (CSUN). I’ve worked for many large corporations and have a wealth of experience. Some of the corporations I’ve worked for are Verizon, GTE, AT&T, Exxon Company USA, Metropolitan Life, and IBM. I’ve also worked for a small manufacturing company, independently as a consultant, and for the US Census.

Most of my experience has been in telecommunications and I was lucky and worked in landlines, corporate IT Audit, wireless, international, and DSL. I’m proud to say I’m heavily skilled with computers and still hold a CISA (retired) certification. For those who may not know what that is, I was a Certified Information Systems Auditor and a member of the Information Systems Audit and Control Association (ISACA). I’m also a registered Real Estate Appraiser in the state of Georgia.

I became interested in pursuing a Paralegal Associates degree when I moved to Athens and began looking for work. I wanted to do something new and I attended one of the Tech on Tuesday programs. I started classes and fell in love with it. I’ve volunteered for the Athens-Clarke County District Attorney’s office and learned a lot about my next profession there. If you’re in the program, volunteering is a good way to get valuable experience.

I’m delighted to support the Student Paralegal Association as an officer at Athens Technical College and look forward to meeting all our new members.
